Education

Indian Institute of Information Technology, Sri City

B.Tech in Computer Science - 7.94 CGPA

Chittoor, Andhra Pradesh

August 2023 - Present

Technical Skills

Languages: C++, Java, JavaScript, Typescript, Python

Frameworks / Libraries: NodeJS, React, Redux, NextJS, Express, Prisma, Tailwind CSS, BullMQ, Socket.IO

Developer Tools: Git, GitHub, Postman, Figma, Prisma Studio, Docker

Databases: MongoDB, PostgreSQL, MySQL, Redis

Cloud / Deployment: AWS, Azure, Vercel, Render, Digital Ocean, CI/CD

Experience

MERN Stack Developer Intern – Avijo 🏠 (Remote)

Jul 2025 – Sept 2025

- Delivered **2 core MVP modules** for Avijo Alpha, taking **ownership from development to production readiness** and ensuring alignment with product requirements.
- Built and maintained a **scalable MERN-based platform**, designing and optimizing **30+ RESTful APIs** for core backend features including service edit/delete workflows, appointments, reviews, and profile management.
- Led **backend fixes and enhancements** for critical production systems including **Google Authentication**, **HPR/HFR routing**, and user registration, while implementing **end-to-end doctor and facility booking workflows** across **all 3 core modules**, and optimized APIs reducing response time by **20% (~250ms to ~200ms)**.
- Enhanced **application stability** and user experience by resolving **production issues and UI bugs**, while collaborating with **cross-functional teams** via **Git workflows** and contributing to **code reviews**.

Projects

EmployVerse 🏠 🏠 | *React.js, Node.js, Express.js, MongoDB, Redis, BullMQ, GraphQL, Socket.IO, Docker, CI/CD*

- Architected and developed a **microservices-based** job portal platform with **3 independent services** (Applicant, Recruiter, Admin), enabling **scalable and isolated deployments**.
- Engineered **40+ REST and GraphQL APIs** for authentication, job applications, recruiter workflows, and analytics, and developed an **AI-powered Resume Analyzer** and **ATS scoring system** that improves job-match relevance by **~55%**.
- Implemented **Redis caching** and **asynchronous task processing** using **BullMQ**, reducing average **API response time from ~320ms to ~45ms (86% improvement)** for frequently accessed endpoints.
- Built a **real-time communication system** between applicants and recruiters using **Socket.IO**, featuring live application updates, Pub/Sub event handling, and a notification system powered by **BullMQ** for reliable asynchronous delivery.
- Containerized backend services using **Docker** and automated **CI/CD workflows** with **GitHub Actions**, improving deployment consistency and reducing manual setup effort.

Cloud Class 🏠 🏠 | *Next.js, React, TypeScript, Prisma, Stripe, Mux, Clerk*

- Developed a **full-featured LMS** for students and instructors with a **modern UI** and **15+ REST/HTTP endpoints**.
- Student Mode:** Implemented **course browsing and filtering**, secure payments via **Stripe**, progress tracking, personalized dashboard, and **HLS-based video streaming** using **Mux**.
- Instructor Mode:** Built tools for **course and chapter creation**, **content management**, **analytics dashboard**, **media uploads** (thumbnails, videos, attachments), and **authentication** using **Clerk**.

InstaGenie 🏠 🏠 | *NextJS, MongoDB, Gemini API, Express, Node.js, Stripe, Typescript*

- Built an **AI-driven full-stack platform** for Instagram content automation, integrating **Gemini API** for intelligent generation of captions, hashtags, music recommendations, and comment replies for posts, stories, and reels.
- Engineered a **custom credit-based monetization system** with **Stripe payment gateway** integration and built a **production-grade dashboard** with secure authentication using **Next.js App Router** and **TypeScript**.

Achievements and Certificates

- Achieved **1720+** rating on LeetCode and solved **800+** problems across multiple platforms including Codeforces and GFG.
- Internship Completion Certificate and Letter of Recommendation - Avijo 🏠
- Certificate of Completion of course - Complete Web Development Bootcamp - Udemy (By Angela Yu) 🏠

Responsibilities

- Tech Team (2025–2026):** Designed and maintained institute event websites with responsive UI/UX; contributed to Utkrishta and Abhisarga (Annual Fest) by implementing key features and improving functionality.
- FSD Team Lead (Jan 2025 – May 2026):** Led a team of 5 for Full Stack Development, driving project execution and mentoring developers across frontend and backend tasks.
